

# Dillon Petito

dillonpetito@gmail.com

github.com/dillon

dillon.global

Software Engineer specializing in Full Stack Javascript with `React`, `React Native`, and `Node.js`.

## RECENT PROJECTS

### Monitor 2018

`React Native` mobile app that keeps track of Ethereum wallet balances and transactions with push notifications. Uses `Firebase` cloud messaging, cloud functions, user auth, realtime database, and more. In beta via Testflight.

### GunControlGrades.org 2018

`React` web app allowing users to create a personalized voting card for the 2018 midterm elections based on their state candidates' stances on gun control. Made for Jonathan Horowitz and Downtown For Democracy.

## SELECTED EXPERIENCE

### Artist Assistant, Jonathan Horowitz 2017-Present

2D and 3D image post-production; book and web design; software development.

### Marketing Coordinator, VFILES 2016-2017

Managed production, release, and analytics for media across all digital communication platforms.

### Digital Preservation Fellow, Rhizome 2016

Audited archived web-based works for re-staging in the Net Art Anthology. Archived new platform-based artworks and digital museums with Rhizome's Webrecorder software. Wrote about the history of open source and art on the web.

## EDUCATION

### New York University, Gallatin 2012-2016

B.A. Individualized major concentrating in contemporary and digital art history and critical theory.

### FreeCodeCamp 2018

Full Stack certification, representing 1800 hours of coursework.

### Harvard CS50: Introduction to Computer Science 2018

Algorithms & data structures, resource management, security, and web development in `C`, `Python`, `SQL`, `Javascript` and more.

### Harvard CS50 Mobile App Dev. with React Native 2018

`React Native` and `Redux`; debugging and testing for mobile with `Chai`.

## SKILLS

### GENERAL

- Algorithms and Data Structures
- Responsive Web Design
- Data Visualization
- APIs and Microservices
- Mobile development

### FRONT END

- `React` expert
- `React Native` confident
- `Redux` confident
- `d3js` confident
- `Flask` familiar

### BACK END

- `Node.js` expert
- `RESTful API` confident
- `Firebase` confident
- `Heroku` familiar
- `Mongodb` familiar
- `SQLite` familiar

### SOFTWARE

- `Git` & `Github` expert
- `VS Code` expert
- `Adobe Suite` expert
- `XCode` beginner
- `Beaker` & `dat://` beginner

### LANGUAGES

- `Javascript ES6` expert
- `HTML` & `CSS` expert
- `Python` expert
- `C` familiar
- `Typescript` familiar
- `Sass` familiar
- `Swift` beginner
